### **Guidelines for the preparation and submission of Abstracts**

Each participant, correctly signed up for the congress, will be able to present a Poster.

The abstract, to be submitted within 30th March, will be published in the program.

The best posters will be selected for an oral session.

The candidate must hold a PhD or equivalent, have conducted independent research, and have demonstrated evidence of scientific impact through high-quality publications and dissemination activities.

Language: Italian and English Maximum number of words: 250 (excluding Titles and authors)

Abstract structure:

- Premise
- Scope
- Materials and methods
- Results
- Conclusions

It is possible to send, outside the abstract, 5 bibliographic entries considered the most relevant by the authors.

Each author may present only one work but participate in multiple works as a co-author.

It is possible to send multiple contributions as first author, but in the case of multiple acceptance, the first author must indicate the name of the co-author who will present the work or refrain from presenting more than one."
